

USE BMG ADR™ TO IMMEDIATELY INCREASE YOUR BOTTOM LINE

Measure Efficiency

- See how your asset is producing and affecting your bottom line in real-time. Whether you are in front of your PC or just want to check-in quick from your phone, BMG ADR™ has you covered.

Track Downtime

- No more ambiguity or shuffling of paper logs; jump into your customer portal and run a Pareto report to quickly analyze any time range you need.

Setup Custom Alerts

- Know when there is a problem immediately and avoid the trouble of an unscheduled downtime event – get notified when your parameters are out of range. Create as many custom alerts as you would like based on your machine's actual process data.

Expect Best-In-Class Security, & Superior Remote Service

- Enjoy peace of mind knowing BMG ADR has best-in-class security, automatic updates and BMG's expert support staff will be there to assist you when you need it the most.

Connect with Confidence and Drive Results with BMG ADR

Take the next step in remote connectivity with BMG Advanced Digital Readiness™ IIoT connectivity. Interface real-time with your equipment via BMG's customer web portal or smartphone app and use the data at your fingertips to drive results.
